WHAT A TEAM PLAN INCLUDES

- **Every course, for every member** - all 58 courses across design, AI, coding, video and productivity.
- **One simple invoice** - annual, per seat, billed once. Purchase orders welcome.
- **Set up in days** - we provision access; no long enterprise onboarding.
- **Progress reports on request** - see how your team is engaging.
- **Always current** - new courses monthly, including the latest AI tools.
- **Support always included** - for your admin and every learner.

GET YOUR TEAM AI-READY

Your team is expected to use AI well, but most were never shown how. A team plan gets everyone confident with the tools that matter now, like ChatGPT, Claude and AI design, through practical, project-based courses.

WHY TEAMS CHOOSE US

- A fraction of enterprise LMS cost per seat
- Focused on design, AI and creative tech
- Project-based, taught by practitioners
- No long contracts, no lock-in

BUILT FOR

Marketing & creative teams

Agencies & studios

Startups & scale-ups

Ops & product teams

L&D & people teams

Ready to get your team learning?

Most teams spend more on a single external workshop than a full year of all-access for everyone.
